

Join us for a
Waihemo Community Hui

Palmerston Sports Hall

(33 Gilligan Street, Palmerston)

Sunday 17 November, 11:30am – 2pm

includes Light Nibbles

- 
- Do you understand the natural hazards around you?
 - With any type of emergency, it is important that you and your family are prepared.
 - Need to plan, then let's make a plan!

Following the recent severe weather event, now more than ever, is a great time to learn more about being prepared for an emergency that may affect you, your family, and our community. Join our emergency services, hazard experts and other organisations as we share information on becoming more resilient!

This hui is a great chance to “get to know your community” and the various services and people located within it.

SOME OF THE KEY SPEAKERS YOU'LL HEAR FROM ARE:

Caroline Orchiston, Research Associate Professor (University of Otago), former Science Lead on AF8 Programme. Caroline will cover the likely impacts an Alpine Fault earthquake would have on our region.

Tim van Woerden, Senior Natural Hazards Analyst (Otago Regional Council) will cover other natural hazards within the Waihemo ward.

Danny Fountaine, Emergency Management Advisor (Emergency Management Otago) will provide preparedness information so you and your family can be prepared for emergencies.

There will be a 'Question & Answer' session after key speakers have spoken, and a chance to meet and talk with local community and wider network organisations/groups within our area.

Proudly supported by:

Ministry for Primary Industries
Manatū Ahu Matua

Save the Date:
